

Resume of Hui XU

Basic Information

School : School of Computer Science
Gender: Female
Date of Birth: 198310
Title: Professor
Education: Ph.D of Science
Tutor: Master degree
Email: xuhui@hbut.edu.cn
Interest of research: Network management and security

Academic Background

From September 2001 to June 2005, Huazhong Normal University, Bachelor's degree in Computer Science and Technology;

From September 2005 to June 2007, Huazhong Normal University, Master's degree of Engineering;

From September 2007 to June 2010, Huazhong Normal University, Ph.D of Science.

Oversea visiting

Enrollment Information

1. Enrollment Discipline: Computer Science and Technology
2. Research direction: Network management and security
3. Enrollment Year: 2023-2024

Representative Projects

1. National Natural Science Foundation of China "Research on Primitive Representation and Extension Methods of SDN Management Information", China, Project leader.
2. National Natural Science Foundation of China "Research on the Integration Problem of Information Models for SDN Network Management", China, Project leader.

Representative Articles

1. An Improved Jump Spider Optimization for Network Traffic Identification Feature Selection, Computers, Materials & Continua, 16(2023), 3239-3255.
2. Application of Improved Butterfly Optimization Algorithm Combined with Black Widow Optimization in Feature Selection of Network Intrusion Detection, Electronics, 11(2022), 3531.
